Madison Valley Home Tour

by Dottie Fossel

The first Madison Valley Home Tour sponsored by the Madison Valley Medical Center (MVMC) Auxiliary was a great success. Over 120 men and women enjoyed meeting the owners and touring the six distinctive homes opened for the day. Mostly, people from the Madison Valley were treated to viewing the variety of homes, but several people came from Bozeman and Big Sky as well. If there were a prize for the longest distance traveled it would have gone to a couple from Belgium who were guests at the home of relatives in Ennis.

The MVMC auxiliary's purpose is to support the Medical Center. All proceeds will enhance the comfort and care of our patients.

The auxiliary of MVMC staffs the reception desk 8 to 5pm, Monday through Friday directing clients to the lab, radiology, hospital, clinic or physical therapy. Those smiling volunteers, known as "purple ladies", are the first people you see when you enter the medical center. Anyone interested in volunteering in this rewarding community service is encouraged to call MVMC at 682-6862 and ask for the reception desk.

Home Tour participants inside this 12 year old home that looks over 100 years old.
